50 pieces more of those lovely Vewets-those lovely Novelty Velvets-which have created such a jurore. These are regular \$2 velvets, and in selling them at 79c we are doing a remarkable thing.

There's a reason for the wide difference between value and our selling price. Briefly, it is due to a death in an importing firm, rendering necessary a quick turning of all surplus merchandise into cash.

Now, in the face of that very important fact, viz., that velvet has been decreed as the leader of fabrics for all manner of costumes, this offering assumes paramount importance. We regret that there are but 50 pieces in this collection—if we had 2,000 pieces to sell at 79c. a yard we would like it better, for even at the regular price of \$2.00 a yard New York will sell hundreds of thousands of yards of this identical orand and quality.

Every yard of it imported—and imported to sell at more than double the price we ask for it.

An unequalled fabric for reception gowns, evening wear, street costumes and children's dresses, and being the imported sort has the justre and richness which our American looms cannot approach. The width of the wale is according to fashion's latest decree, and

colors are the most wanted kind. The Price Should Be \$1 a Yard.

But we came to the rescue of an importer who wanted to turn all his stock into cash, and so instead of a dollar a 49C yard this Queen of Dress Fabrics comes to you now at
